AIC-Design®

Art Interior Contemporary

The concept: Bring the art back in large format, custom-made to your needs with a new illuminable panel

AIC Design® takes Art into another dimension by using an all-over lighting system. AIC Design® panels solve many technical issues such as heat and humidity, to bring a unique visual and aesthetic signature to your interiors and outdoors. With years of experience in waterproofing and buildings materials, studio photo shoot and artwork printing, we have developed this revolutionary process to create unparalleled quality of large scale print (up to 6m²) on durable, innovating and LED equipped materials. We push the boundaries of artwork printing as unseen before, details like paint shine and texture are visible on the reproduction. Our panels are limited editions.

Sheet panels with maximum dimensions of 2 m x 3 m (no visible joint)

Waterproof and suited to the most extreme constraint

Thickness of only 19 mm (rail and lights included)

Custom made

Artwork reproductions
Limited and numbered editions

Customized to your specific artwork reproductions

AIC Design® takes Art into another dimension

Technical data

AIC Design has selected materials suitable for all types of installation. The artwork is printed in order to resist to shocks or water damages. We offer single sheet panels with maximum dimensions of 2 m x 3 m (no visible joint). Thickness of the panel 8-10mm (more on demand), overall thickness (with profiles and led lit installation 19mm).

Application areas

Indoor:

Wall covering suitable for bathroom, bathtubs, kitchen.
Lobby, ornamental dressing, entrance hall, display stand.

Outdoor:

Wall covering / LED lit signature

Unparalleled Image Quality

With years of experience in photo shooting and artwork printing, we master view shoots techniques specific to large scale painting, therefore retaining many details of the original piece. Our unique process offers gigapixels precision for reproduction up to 6 m² (size).

High detailed reproduction
